Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 26, 2010 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 13 – 14 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 1 181 910 A1.

With reference to claims 1, 13 – 14 and 21, EP 1 181 910 A1 (hereinafter '910) discloses a one-piece ostomy appliance comprising a bag having a front wall and a rear wall (figure 1) and a opening disposed in the rear wall of the bag that is configured to receive a stoma [0014]. The appliance also includes an adhesive wafer with an alignable opening having a skin securing adhesive layer one side and a second side positioned to abut the rear wall of the bag as set forth throughout the disclosure. A

release liner is taught in [0016]. The second side includes a first permanently secured portion and a second unsecured portion that includes an adhesive layer for selective securement as set forth throughout the disclosure, see especially [0010-0011].

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 4 – 5, 9 – 10 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 1 181 910 A1 in view of Thomas (4,865,594)

The difference between '910 and claim 4 is the provision that the ostomy appliance comprises a stiffening element.

Thomas provides the ostomy appliance with a stiffening element to which first and second parts of the bag are secured as set forth in col. 3, lines 23 – 41.

It would have been obvious to one of ordinary skill in the art to provide the ostomy appliance of '910 with a stiffening element as taught by Thomas because the

use of such facilitates adhesion and/or reduces skin irritation as taught by Thomas in col. 3, lines 16 – 41.

With reference to claims 5 and 9 – 10, see col. 3, lines 16 – 41 and figure 3 of Thomas.

With respect to claim 16, see the rejection of claim 4.

Response to Arguments

Applicant's arguments with respect to claims 1, 4 – 5, 9 – 10, 13 – 14, 16 and 21 have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is 571-272-4935. The examiner can normally be reached on Monday thru Friday.
